

REMC Electric Assistance Program

LEND A HAND

The Electric Assistance Program is designed to help REMC members who are 150 percent below the poverty level pay their electric bills in time of need. You can help by sending a donation of any amount to the program. Each member donation will be matched by equal funds from Harrison REMC.*

All contributions made to the REMC Electric Assistance Program are tax deductible. You will receive a receipt for your records.

Local county community service agencies will distribute the funds from the REMC Electric Assistance Program to provide direct service assistance to REMC members. Since Harrison REMC serves part of five southern Indiana counties, contributions will be distributed in the county from which they were received. To make a contribution, please complete this form and send it to: Harrison REMC — Electric Assistance Program, P.O. Box 517, Corydon, IN 47112.
